Digital Print Boxes:

Due to the matte finish of the boxes and the nature of this printing process, the ink bonds by absorbing into the box material, thus resulting in the print possibly appearing less vibrant than it would with traditional Litho printing processes.

Any white in a logo cannot be branded and we cannot guarantee an exact colour match as the box has a matt finish.

The nature and inconsistency of the pre-cut boards may create a 1-3mm of unbranded space on the front lip, and imperfections maybe be found within the print. Large solid coverage prints are not recommended, if large solid coverage is required, it is recommended on Kraft boxes as imperfections are less noticeable.

The background of the entire image is a repeating geometric pattern. It consists of a grid of diamonds. Inside each diamond, there is a smaller diamond, and between these two diamonds is a semi-circular arc. The lines forming this pattern are a light brown or tan color. The overall background color is a muted, dusty blue-grey.
